MHA Conference Center
Burlington/Boston, MA
9:00 am - 3:45 pm
Pediatric Case Management: 
Care Across the Continuum: Managing the Patient, Plan and Payer

Working with pediatrics requires very strategic Case Management to ensure the best care. This comprehensive program is designed to turn pediatric case management challenges into strategies and real time solutions.

Join us in the greater Boston area for this exciting program! 
Local Hotel: Hilton Garden Inn, Boston/Burlington MA $199/Night Call: 781-272-8819

PROGRAM OVERVIEW

We’ll focus on managing pediatric care transitions while also teaching practitioners how to keep an eye on important aspects of the revenue cycle. This exciting 2-day program will take a deep dive with experts and leaders in the field and practitioners who are working on innovative solutions to ensure the best and most efficient care for these vulnerable populations. We encourage you to bring a team from your organization to learn the current best practices to take back and use with your pediatric cases.

Featuring 2 Break Out Tracks:
Care Across the Continuum
Revenue Cycle/Case Management

More about The Center for Case Management
Faculty is from The Center for Case Management, founded in 1986 at New England Medical Center (now Tufts Medical Center) in Boston, which has been the industry leader in custom-developed training, tools, roles, and systems for managing outcome-based care from the bedside to the boardroom.

More about MHA’s Institute for Care Coordination
In 2013, recognizing the ever-evolving changes that are transforming care delivery in hospitals and physician organizations, MHA launched a series of targeted programs and training development under a dedicated new effort – the Institute for Care Coordination.

Education will include comprehensive training for nursing leaders on managing population healthcare coordination through care teams, programs for individual care team members, and skills training with focus on contemporary topics such as Motivational Interviewing, which has shown to be impactful in working with chronically-ill patients.
