ABOUT MHA

Founded in 1936, the mission of the Massachusetts Health & Hospital Association is to advance the health of individuals and communities by serving as the leading voice for all Massachusetts hospitals, healthcare systems and other care providers to help them provide high-quality, cost-effective and accessible healthcare. **No organization is better at understanding the needs of the healthcare community and their leaders than MHA.**

Through education, advocacy, and collaboration, we face the challenges that the healthcare sector sees every day. Whether it is legislative, clinical, or educational, we are right there at the table with our members every day, working together to further our world-class healthcare delivery system for the people of Massachusetts.

We invite you to have a seat at the table with us. Through MHA sponsorship, you can position your organization to be on the front lines with MHA and our members in promoting all aspects of healthcare in Massachusetts. You will have the opportunity to connect directly with executives from our member organizations and develop long-lasting business relationships.

Together, we can partner to continue to improve healthcare for the people of Massachusetts.
